Best 73, pse QSL tnx.

Remarks:

Dave, we thought you would enjoy the little extra info on the College. Ray & I enjoy our involvement very much. Very 73 Hilda

VE7LPC is a club station, managed by a group of students, all of them operators, or taking the course in ham radio. Club sponsor is Roy Parrett, VE7TG. VE7LPC is affiliated with CRRL and ARRL, and other ham groups. The World College in Wales has a ham station also, GW3YXP; and the Singapore College is planning a station there. Contact is maintained with ex-students, who have become hams, and who have returned to their home country, from VE7LPC.

VE7LPC is the club station of Lester Pearson College of the Pacific, Victoria, British Columbia, a United World College, offering a two year course with an International Baccalaureate Diploma. Other World Colleges are in Wales and Singapore. Additional Colleges are in the planning stage.

Pearson College has students from over 50 countries, all on scholarships. Age at entry is approximately 15½ to 17½. In addition to the academic subjects, activities include drawing, painting, amateur radio, social service, sea rescue, scuba diving, mountain climbing, etc.

Amateur radio classes are held twice a week, and students can qualify for a Canadian Operator's Certificate which is reciprocal in many countries throughout the world. Operators keep in touch with their home country by ham radio, and students, who are not operators, also talk to friends in other countries where third party traffic is permitted.

The station at VE7LPC was donated by the Kiwanis Club of Victoria. It includes a Kenwood TS-108S transceiver, Hammond Linear, TH6DXX beam antenna on a 70-foot tower, and 800-channel two metre FM station. Operation is mostly on weekends. Skeds are possible on weekdays, after classes - about 22:30Z.

Pearson College is located on the shores of Pedder Bay, 30 kilometres west of Victoria, on Vancouver Island. It is a settlement of buildings constructed in the native woods; designed to produce the friendly feeling of a small community. The site is heavily timbered, and offers spectacular views of the Strait of Juan de Fuca and the snowcapped Olympic Mountains in Washington State, in the United States.

Students at VE7LPC live four to a hut, usually one Canadian and three students from other countries. One hundred places are available each year, allotted by a quota system to the various countries. Applications for entry may be made to the secreatry of the appropriate National Committee, or to Pearson College.

Pearson College is a national memorial to Canada's late Prime Minister and Nobel Peace Prize winner, Lester B. Pearson. The aim of the College is to demonstrate that education can be a force to unite nations, rather than dividing them. Mr. Pearson said in his Nobel Peace Prize lecture in 1957:

"HOW CAN THERE BE PEACE WITHOUT PEOPLE UNDERSTANDING EACH OTHER,
AND HOW CAN THIS BE IF THEY DO NOT KNOW EACH OTHER?"
